

The Leading Supplier of Packaging Containers

We are conscious of the environment in which we operate. Our objective is to supply our customers with the packaging containers they need with the minimal impact upon the environment.

We consider our carbon footprint when both sourcing and delivering products to our customers. We have waste packaging and consumable recycling schemes at all our depots making use of recycled products wherever possible. **INVOPAK**[®] has committed to Eco-Friendly policies and this is demonstrated by our application for ISO14001 Environmental Accreditation.

Our business strategy and company ethos sets out to balance commercial viability alongside keeping the environment, humanity and our impact upon the planet in our minds. Our environmental outlook constitutes **INVOPAK**[®] in being a caring source for your packaging container requirements.
